Price List.

H. J. Weber & Sons Nursery Co.,

Sidney 697.

Nursery Station,

St. Louis, Mo.

Nurseries and Office, located on Gravois Road, 9 miles south of St. Louis Court House and 1 mile west of City Limits in St. Louis Co., Mo.

To reach Nurseries—Take "Cherokee St. Car Line" from St. Louis.

Ask for Transfer "to end of Line."

25 minutes walk from there to the Office.

INTRODUCTORY.

It is with pleasure we present our "Price List" for the Fall of 1903 and the Spring of 1904 to our many friends and patrons, who by their friendship and patronage have enabled us to steadily increase our Nurseries from a comparatively small beginning to one of the largest Nurseries in the United States. We heartily thank our many customers and friends for their patronage in the past and for the many kind words in our behalf, and trust that our future relations may be as pleasant as the past. Our Motto shall always be "Excelsior."

We issue an 80 page Illustrated and Descriptive Catalogue in which we describe most of the varieties quoted in this Price List; it also contains hints on transplanting, pruning, care of trees, soils, distances for planting, spraying, etc. If you have not yet received one of our 1902 and 1903 Descriptive Catalogues, or have misplaced same, send for one, they are free to all applicants.

Our location for Nurseries is an ideal one; our soil is high and rolling; the soil is clay loam, which produces a healthy growth, solid, firm wood and abundant roots so necessary to successful transplanting. Over 200 acres devoted to the business.

Our shipping facilities are "excellent," being so near the City of St. Louis, with her numerous Railroad, Express and River facilities, to which during shipping seasons daily deliveries are made direct from the Packing Grounds, gives us an advantage equalled by very few firms; besides this, the Frisco R. R. Co. is now building their St. Louis & Memphis Line within $\frac{1}{2}$ mile of our Grounds, which will give us excellent facilities for car-load shipments.

The regular shipping season in the Fall commences about October 15th and extends to November 15th, or until freezing up, and in Spring from March 1st to May 1st, according to the weather.

We have large Packing sheds and Cellars, in which all stock is packed in boxes and bales under our personal supervision, with the assistance of competent help in the very best manner possible. Do not hesitate to send your orders for fear of distance.

We are always pleased to show visitors through our "Nurseries." To reach our grounds, take Cherokee Street Car Line (going South) from St. Louis, to end of line, from where it is about 25 minutes walk to the office.

It is our constant aim to add to our list any new introductions, or valuable varieties of fruit and ornamental trees, shrubs, etc., accepting only such as we think have real merit, and discarding such as have no special merit to commend them.

Again extending our thanks for past favors, we respectfully solicit a continuance of your patronage, and those with whom we have not had the pleasure of dealing, we ask for a trial order.

Very Respectfully,

H. J. Weber & Sons Nursery Co.

PLEASE READ CAREFULLY.

TERMS, CONDITIONS AND GENERAL REMARKS.

GUARANTEE.—We exercise the greatest care to have every tree and plant true to name, and are ready, on proper proof, to replace anything sent out by us, that may prove untrue to label, free of charge, or refund the money paid for same. It is understood and agreed between purchasers and ourselves, that we are not to be held liable for any greater sum than that paid us for said trees and plants that prove untrue.

TERMS: Invariably cash, except when otherwise agreed upon.

REMIT by P. O. Money Order (drawn on St. Louis, Mo.), Registered letter, Draft or Express Money Order. Please do not send private checks unless drawn on some St. Louis Bank. Address all letters to "H. J. Weber & Sons Nursery Co., Nursery Station, St. Louis, Mo." — C. O. D. Orders must be accompanied with one-half the amount in cash.

FREE PACKING. We will pack free all orders sold at Catalogue prices, in the best possible manner, in bales or boxes, with moss.

FREE DELIVERY to Freight Depots, Express Offices or Wharfs in St. Louis.

CITY OF ST. LOUIS AND SUBURBAN DELIVERIES. Parties desiring to receive their orders on certain days or immediately on receipt of order, will please order same shipped by "Merchants" or any other "Local" Express Co., they wish goods shipped by; Express charges are to be paid by purchaser. We make no extra charge for the packing or delivering to these Express Offices.

OUR DELIVERY WAGONS will make trips to the various sections of St. Louis, but orders to go this way must be left entirely with us as to time of delivery. We combine a number of orders for one section to make a load in making these deliveries, and can not make special trips unless order is large enough to make a load, when we will send an extra wagon.

PRICES in this list abrogate previous quotations. The articles and prices affixed are for the quantities specified; but 5, 50 and 500 of a variety or kind will be supplied at the 10, 100 and 1000 rates respectively. Long lists of single varieties will be charged at the single rates.

SHIPPING. All orders, whether by Freight, Express or Boat will be delivered to their respective Depots or Offices in St. Louis, which gives our patrons assurance of the best possible rates and quick transportation, North, South, East and West. Bear this in mind when deciding where to place your orders for Nursery stock.

EARLY ORDERS. Customers would oblige us very much by making up their order as soon as possible, sending same to us. This enables us to get their order properly booked and arranged. Do not wait until the last minute and then expect immediate delivery. We are always rushed during shipping seasons, and wishing to serve our patrons to the best of their interests, we kindly ask for early orders whereever possible.

DIRECTIONS. Observe carefully that your name, Post Office, County and State are plainly written on your order; also state whether to be sent by Freight or Express, and by what Route. If no directions are given, we will use our best judgement in the matter.

ERRORS. — Any error that may occur in filling order, must be reported at once on receipt of goods. We will immediately correct same. Complaints entered after the above stated time can not be entertained.

SUBSTITUTION. It is customary, should the supply of a variety become exhausted (as will occasionally occur in all establishments), to substitute in its place a similar sort, if there is such, always labeling correctly. Should it be desirable for us not to do this, please state "No Substitution" on your order.

SELECTIONS. Persons unacquainted with the different varieties can leave the selection to us, in which case we will select as if planting for ourselves.

COMPLAINTS. It is our intention to have all shipments reach customers safely and in good condition. On receipt of stock, open package, and if any cause for complaint, report same at once.

EXPRESS RATES. Trees, Shrubs and Plants are now taken by the Express Companies at 20% less than the regular rates for merchandise. We would advise customers where order is small and distance not too great, to have orders shipped by Express.

CUSTOMERS will oblige us by making their order amount to at least \$1.00. If smaller orders are sent, please allow 10 cents extra for packing.

SPECIAL NOTICE.

All stock will be sent out in good condition; we do not guarantee stock to live under all conditions, nor do we make up any loss whatever due to climate effects, or after culture on the part of the purchaser. — On receipt of stock open package at once and ascertain condition of same, check up varieties and compare with your order and report to us at once. (If package has been frosted en-route or become dry, treat as per instructions given in our descriptive Catalogue page 4.) We can not entertain complaints unless made promptly on receipt of stock.

INSPECTION. Our nurseries have been duly inspected by the State Entomologist and have been found free of San Jose Scale and other dangerous insects and diseases. A copy of certificate of Inspection will be attached to every package that leaves our establishment.

FUMIGATION. Having built our own "Fumigatorium," we will fumigate with "Hydrocyanic Acid Gas" all stock sent to the States where same is required by law. Should any of our customers request us to "fumigate" their stock, we will be pleased to do so, free of extra charge.

H. J. Weber & Sons Nursery Co.,
Nursery Station, St. Louis, Mo.

**NOTICE: THE PRICES IN THIS LIST ABROGATE
PREVIOUS QUOTATIONS, AND ARE MADE
ON STOCK TO BE STRICTLY FIRST CLASS OF THE
GRADES NAMED. PLEASE DO NOT COMPARE OUR

We have a limited stock of the following varieties of Peach, of which there is no description in our Descriptive Catalogue, these are mostly well known sorts. Price same as above.

Fitzgerald.	Jessie Kerr.	Rash Favorite.
Crosby.	Pond Seedling.	Columbia.
Belle of Georgia.	Mammoth Cling.	Washington Cling.
Beers Smock.	Gillman Favorite.	

The following varieties of Peach are some that we are testing, the real value of which we can not determine until our young trees now in "Sample Orchard" have borne, when we will describe them. Parties purchasing of these varieties will accept same under these conditions, we believe them to be "true" but can take no risk, as we have not yet fruited the original trees. Preston Cling, Lord Palmerston, Admiral Dewey, Gold Mine, Stonewall Jackson, Gov. Biggs, Everbearing, Italian Cling. Price 35 cts. each; \$3.00 per 10.

Special. (Laura Cling).

We will this fall place on the market a peach that was found in an Orchard of Krummel Late, on the farm of Mr. Nick. Waterhaut of Sappington, Mo. by his daughter Laura, and in whose honor the variety has been named, the Peach is identical with Krummel Late, only that it is a Cling-stone, ripens same time as Krummel Late and on account of the time of ripening will be a valuable acquisition to our list of late cling-stone Peaches coming as it does after White Heath Cling.

We have only a limited number of trees to offer this season and on this account we are compelled to restrict sales to not more than 10 trees to any one customer. Price, 50 cts. each; \$4.00 per 10.

If you have not received our Descriptive Catalogue, or have misplaced same,
send for another.

ORNAMENTAL DEPARTMENT.

Our Ornamental Department is now one of the largest and most complete, (if not the largest) in the west, we invite careful perusal of our offerings and if possible, inspection of stock.

Special attention is given to the supplying of Public and Private Parks, Estates, Subdivisions, Pleasure Grounds, Club Grounds, Railroad Companies for Station Grounds, etc.

On large lists of stock we request a list of wants for special prices.

AGRICULTURE BUILDING.

The Agriculture Building will stand on a hill just west of Skinker Road and about half a mile south of the Administration Building. Its dimensions will be 500 by 1600 feet. The long facade will be broken up into bays accentuated by piers, the latter 100 feet from center to center. The ornamentation is to be concentrated in the main entrances, of which there will be five; one in the center of each of the shorter fronts, one in the center of the front on Skinker Road and two placed at equal distances on the front toward Arrowhead Lake—the western front. The openings in these entrances will be 52 feet wide and 74 feet high. A massive arch flanked by heavy pylons that rise only a short distance above the cornice make up this entrance composition.—The lighting of the building has received special attention from the architect and will probably be the best lighted structure on the Fair. The roof will be carried on 9 bays of trusses, those in the center having a span of 106 ft. The building will have little ornamentation, and although the largest structure on the grounds, it will cost less than some of the buildings in the main architectural picture of the Fair. The contract price is \$529,940. The contractors are Caldwell & Drake, who also have the contract for the erection of the Horticulture Building.

HORTICULTURE BUILDING.

The Horticulture Building stands on Skinker Hill, 250 feet south of the Agriculture Building, with a center pavilion and two wings. The center pavilion is 400 feet square; the wings are each $2\frac{1}{2}$ feet by 250 feet. They are divided from the center pavilion by glass partitions and the floor of each is 9 feet lower than that of the center pavilion. This difference in elevation produces a monumental effect, which is further heightened by the use in the main entrance on the north front of two towers about 150 feet high.

The center pavilion will contain the pomological exhibits, including, according to the classification, pomaceous and stone fruits, such as apples, peaches, nectarines, etc.; citrus fruits, such as oranges, lemons, limes, etc., tropical and sub-tropical fruits, such as pine apples, bananas, olives, figs, etc.; small fruits, such as strawberries, gooseberries, etc., and nuts.

The construction of the building shows no change from the accepted method of the other buildings. The exhibit spaces are covered by trusses, which range in span from 72 feet over the center aisle to 48 feet over the side aisles.

The space between the Horticulture and Agriculture buildings will be laid out in a highly ornate garden in which exhibiting florists and nurserymen will maintain beds.
